IPM-93-040

Some rigid 2-(15, 5, 4) designs

G.B. Khosrovshahi, A. Nowzari-Dalini and R. Torabi

IPM-94-041

Magic labeling in graphs: bounds, complexity and an application to a variant of TSP

B. Kalantari and G.B.Khosrovshahi

IPM-94-042

Bicovariant differential geometry of the quantum group $SL_h(2)$

V. Karimipour

IPM-94-043

Representations of the coordinate ring of $GL_q(n)$

V. Karimipour

IPM-94-044

Representations and Q-boson realization of the algebra of functions on the quantum group $GL_q(n)$

V. Karimipour

IPM 94-045

On linear programming and matrix scaling over the algebraic numbers

B. Kalantari and M.R. Emamy-K

IPM 94-046

A duality-like transformation in WZNW models inspired from dual Riemannian globally symmetric spaces

A.M. Ghezelbash

IPM 94-047

On the Inhomogeneous quantum groups

A. Shariati and A. Aghamohammadi

IPM 94-048

Phase transition in one-dimensional lattice gauge theories

M. Khorrami

IPM 94-049

Q-meromorphic functions, quantum subsets and automorphisms of the quantum plane

A. Shafei Deh Abad and V. Milani

IPM 94-050

Smooth structures on finitely generated projective modules

A. Shafei Deh Abad

IPM 94-051

Intersections of triple systems: minimum indices

S. Ajoodani-Namini and G.B. Khosrovshahi

IPM 94-052

$U_q(sl(n))$ difference operator realization

A. Shafiekhani

IPM 94-053

A linear algebraic approach to directed designs

E.S. Mahmoodian and Nasrin Soltankhah

IPM 94-054

Baryogenesis from long cosmic strings

M. Mohazzab

IPM 94-055

Evaporating black holes and an entropic scale-hierarchy

H. Salehi

IPM 94-056

Vertex operators of $SL(2, R)$ black hole and 2-d gravity

M. Alimohammadi and F. Ardalan

IPM 94-057

On the bases for trades

G.B. Khosrovshahi and Ch. Maysoori

IPM 94-058

A construction for block circulant orthogonal designs

H. Kharaghani
