

Table of Contents

A. Belavin	Conformal Field Theory and Quantization of KdV	1
S.V. Bondarenko, B.A. Faizullaev, and D.V. Galkin	Total Two Loop Effective Action for QCD	15
E. Corrigan	Reflections	25
S. Das	Degrees of Freedom in Two Dimensional String Theory	38
M.R. Ejtehadi, and S. Rouhani	Monte Carlo Simulation of Heteropolymers in Two Dimensions	51
J. Ellis	Testing the Standard Model and Beyond	59
V. Garsevanishvili and Z. Menteshashvili	Multiquark States in Nuclei and Nuclear Matter in DIS and DY Processes	97
Ghafoori-Tabrizi, S. Goushen and H. Sepangi	On signature Dynamics in Robertson-Walker Cosmologies	107
A.M. Ghezelbash	Vector-Chiral Equivalence in Null Gauged WZNW Theory	117
R. Golestanian, M. Goulian and M. Kardar	Fluctuation Induced Interactions between Rods on Membranes and Interfaces	125
P. Hoodbhoy	Orbital Angular Momentum in QCD in the Asymptotic Limit	135
M. Kohandel, R. Golestanian, and M.R.H. Khajehpour	A Dynamical Test of Special Relativity Using the Anomalous Electron g-Factor	145
R. Mansouri and M. Sheikhjabbari	Bubble Growth in Flash Vacuum	153

B. Mashhoon	Foundations of General Relativity	163
V. Milani	Functional Quantization: Homomorphisms of the Quantum Plane	173
M. Modarres	High Density Nucleon Matter	177
A. Mostafazadeh	Berry's Phase Universal Bundles and Representation Theory of Compact Lie Groups	189
S. Parvizi	WZNW Models from Non-Standard Bilinear Forms	201
M. Payami and N. Nafari	Spherical Symmetry and Odd-Even Alternation in Simple Metal Clusters	213
M.R. Rahimi-Tabar S. Rouhani and B. Davoudi	The N-Point Correlation Functions of Burger's Turbulence	223
M. Rainer	Classifying Spaces for Homogeneous Manifolds and Their Related Lie Isometry Deformations	229
S. Rouhani and M. Vesali	Magnetic Phases of the Random Energy Model	251
L. Ryder	The Foucault Pendulum and Rotating Schwarzschild Coordinates	261
H. Salehi	Quantum Gravity and Short Distance Irreversibility	267
B. Sheikholeslami Sabzevari	Four Dimensional Coupling of Electromagnetic Waves in Space-Time Varying Anisotropic Plasma	271
D. Tskhakaya	Collapse of Longitudinal Waves in a Plasma	279
S. Wadia	Quark Confinement and Dual Representation of 2+1 Dimensional Yang-Mills Theory	287
