گزارشهای فنی

A. Nowzari-Dalini

IPM-95-084

The lower and upper bounds for generalized section functors

S. Yassemi

IPM-95-085

Does Bell's inequality violation imply non-locality?

H. Razmi and

M. Golshani

IPM-95-086

Quantum group symmetry of the quantum Hall effect on the non-flat surfaces

M. Alimohammadi and

A. Shafei Deh Abad

IPM-95-087

2-d Gravity as a limit of the $SL(2, R)$ black hole

M. Alimohammadi and

F. Ardalan

IPM-95-088

Application of a neural network to the prediction of transmembrane regions of membrane proteins

C. Lucas, A. Tabesh,

and S. Khademi

IPM-95-089

A new svd-based doa estimation method

D. Dabiri and C. Lucas

C.E. Praeger

IPM-95-076

Quantified modal logic: an analysis of certain essentialist theses

H. Vahid

IPM-95-077

Endomorphisms of the group of all recursive permutations

A.S. Morozov

IPM-95-078

Free field representation of $osp(2|1)$ and $U_q(osp(2|1))$

W.S. Chung and

A. Shafiekhani

IPM-95-079

Generalized Camacho-Sad theorem

B. Khanedani

IPM-95-080

On the group $G(D) = D^/RN_{D/F}(D^*).D'$*

S. Akbari

IPM-95-081

Hypersurfaces in \mathbb{R}_1^N satisfying $\Delta x = Ax + B$

S.M.B. Kashani

IPM-95-082

A critique of two construction methods of t -designs

G.B. Khosrovshahi

IPM-95-083

Generation of binary trees from new (0-1) codes

H. Ahrabian and

IPM 94-069

First variation of holomorphic forms and some applications

B. Khanedani

IPM 94-070

Octahedrals in Steiner quadruple systems

G.B. Khosrovshahi and

H. Yousefi-Azari

IPM 94-071

On a conjecture of A. Hartman

S. Ajoodani-Namini and

G.B. Khosrovshahi

IPM 94-072

On (2, 3)-trades of small volume

G.B. Khosrovshahi and

H. Maimani

IPM 94-073

A general formulation of discrete-time quantum mechanics restrictions on the action and the relation of unitarity to the existence theorem for initial-value problems

M. Khorrami

IPM 94-074

A triangular deformation of the two dimensional Poincaré algebra

M. Khorrami, A. Shariati,

M.R. Abolhassani, and

A. Aghamohammadi

IPM 94-075

Movement and separation of subsets of points under group actions
