IPM Proceedings Series No. 1
Proceedings of the First Logic Congress
 Edited by
 S. Etemad, M.J.A. Larijani,
 and Z. Movahed

۳. درسنامه‌ها

A Course on Foundations of Nonstandard Analysis
 Vladimir Kanovei
 with a preface by:
 M.Reeken

زیر چاپ.

Model Theory and Theoretical Computer Science
 M.J.A Larijani
 V. Lyubetski

به زودی منتشر می‌شود.

Elementary Introduction to Arithmetic Groups
 Salahodin Shokranian

به زودی منتشر می‌شود.

IPM 93-027
Quantum group $SU_q(2)$ and the spin of the superdeformed bands
 A. Abbas

IPM 93-028
A note on labelings of graphs
 G.B. Khosrovshahi and
 R. Torabi

IPM 93-029
Trading signed designs and some new 4-(12, 5, 4) designs
 G.B. Khosrovshahi,
 A. Nowzari-Dalini and
 R. Torabi

IPM 93-030
Large- N_c QCD and the structure of baryons
 A. Abbas

IPM-93-031
Nonstandard deformation of B_n series
 A. Aghamohammadi,
 V. Karimipour and
 A.R. Nezami

IPM-93-032
Inhomogeneous quantum groups related to two dimensional quantum planes
 A. Aghamohammadi,
 S. Rouhani and A. Shariati

IPM-93-033
Q-analytic functions on quantum spaces
 A. Shafei Deh Abad

IPM-93-034
Infinite dimensional Dirac structures, I
 A. Shafei Deh Abad and
 A. Parsian

۱. گزارشهای فنی

IPM 93-020
The 2-parametric extension of \hbar deformation of $GL(2)$, and the differential calculus on its quantum plane
 A.Aghamohammadi

IPM 93-021
System theory and fuzzy sets, part II: topology and duality in translation invariant systems
 A. Daneshgar

IPM 93-022
How two Fatou components of a hyperbolic rational map of degree two interface?
 D. Ahmadi

IPM 93-023
Steps towards a general relativistic kinetic approach to quantum field theory at ultra high energies
 H. Salehi

IPM 93-024
Non-leptonic weak charmed baryon decays in the $SU(4)$ semidynamical scheme
 S.M. Sheikholeslami

IPM 93-025
Some correlators of $SU(3)_3$ WZW models on higher-genus Riemann surfaces
 M. Alimohammadi

IPM 93-026
Latin and semi-Latin factorizations of complete graphs and support sizes of quadruple systems
 S. Ajoodani-Namini
